

## ePARmed-X+ Physician Clearance Follow-Up

This form is separated into three main sections:

- A) Background information regarding the PAR-Q+ and ePARmed-X+ clearance process,
- B) A brief history and demographic information regarding the participant, and
- C) The physician's recommendations regarding the participant becoming more physically active.

At the end of this process, the participant is recommended to take this signed clearance form to a qualified exercise professional or other healthcare professional (as recommended in the ePARmed-X+) before becoming <u>more</u> physically active or engaging in a fitness appraisal.

## ${ m A}\,$ background information regarding the par-Q+ and eparmed-x+ clearance process

The ePARmed-X+ is an easy to follow interactive program (<a href="www.eparmedx.com">www.eparmedx.com</a>) that can be used to determine an individual's readiness for increased physical activity participation or a fitness appraisal. The ePARmed-X+ supplements the paper and online versions of the Physical Activity Readiness Questionnaire for Everyone (PAR-Q+).

Individuals who use the ePARmed-X+ have had a positive response to the PAR-Q+, or have been directed to the online program by a qualified exercise professional or another healthcare professional, owing to his/her current medical condition. At the end of the ePARmed-X+, it is possible that the participant is advised to consult a physician to discuss the various options regarding becoming more physically active. In this instance, the participant will be required to receive medical clearance for physical activity from a physician. Until this medical clearance is received, the participant is restricted to low intensity physical activity participation.

This document serves to assist both the participant and physician in the physical activity clearance process.
